

PVC WATERSTOPS

M series according DIN 18541 1-2

Waterstops M series special pieces

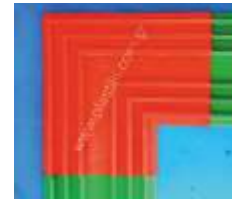

The special pieces for the waterstop types WM D250 /30 and WM D320/20 are with monoblock technology

Cross - Piece Flat

T - Piece Flat

Corner - Piece Flat

Our company after research and special molding design is the only company worldwide which has made the special pieces with injection molding technology. The monoblock special pieces are eliminating welding failure during the manufacture of the waterstop intersections.
