

ANCHOR LOCKS FOR HDPE MEMBRANES

The Anchor Locks are used for mounting the HDPE membranes on tunnels and water tank walls.

Technical Data HDPE Anchor Locks for Anchoring HDPE membranes

Density	0.93 gr/cm ³
Chemical Base	Polyethylene
Tensile Strength at break	> 50 N/mm ² ISO 527 - 3
Tear resistance	25 N/mm ² ISO 6383 - 2
Elongation at Break	> 750 % ISO 527 - 3
